Website Description: "Interview & GD Prep" **@** Purpose: The Interview & GD Prep website is designed to help students, job seekers, and professionals prepare for mock interviews and group discussions. It provides structured services, realworld practice environments, and expert feedback to boost confidence and performance during actual interviews and group discussions. Website Features: 3 1. Homepage & Hero Section Welcomes users with a clean and modern design. Highlights the core purpose of the platform: interview and group discussion preparation. Includes a clear call-to-action (CTA) button to engage users. 🖹 2. Services Section Lists the key services offered: Mock Interviews: Simulated interview sessions with feedback. Group Discussion Prep: Practice GDs on trending and relevant topics. Resume Review: Resume polishing to increase hiring chances.

Displays reviews from previous users to build credibility.
Shows the impact of the services on real users' interview journeys.
4. Contact Form
A basic form that allows users to reach out for inquiries or to schedule sessions.
Includes fields for name, email, and a message box.
■ 5. Responsive Design
Works well on both desktop and mobile devices.
Uses clean, responsive CSS for layout and styling.
☆ Technology Used:
HTML5: For website structure and layout.
CSS3: For styling, layout, and responsiveness.
(Optional enhancements can include JavaScript or backend later.)
Project Structure:
interview-gd-prep/

Ø Future Enhancements (Optional):

Add login/signup functionality for users.

Integrate a booking system (e.g. Calendly or Google Calendar API).

Add real-time chat or video interview practice options.

Use JavaScript for dynamic feedback or progress tracking.
